

COMMUNICATIONS FOR A BORDERLESS WORLD®

Dilithium Corporate Profile

Dilithium® is the leading global provider of video solutions enabling multimedia services from any network to any device. Dilithium's extensive customer base spans more than 60 countries, 120 service providers and operators comprising more than 1.5 billion subscribers.

Dilithium's Galaxy suite of hardware, software, and service solutions are used by many of the world's largest service providers and content companies to create and distribute multimedia solutions that are changing the way people communicate. From our founding, our mission has been to enable "Communications for a Borderless World."

Customers include:

- 10 of the top 15 Global Mobile Operators, leading broadband providers and aggregators
- 8 of the top 10 Telco Network Equipment Suppliers and leading global system integrators
- 7 of the top 10 Handset Vendors

Galaxy - Products & Solutions

Galaxy is a unique video suite that integrates Dilithium's video enabling solutions for video applications, adaptation and optimization. It offers the most comprehensive coverage of video solution enablers for any mobile video application on any network - mobile packet-switched and circuit-switched applications, Edge, 3G, LTE/ 4G, wireless, and interactive or one way delivery.

The Galaxy suite includes:

- DCA - Dilithium Content Adapter
- DVO - Dilithium Video Optimizer
- ViVAS (Video Value Added Services) - Multimedia Service Creation Environment
- DTG® 3000 - Multimedia Transcoding Gateways
